

# Pipe Supports Asia Limited

Pipe Support Industry

Thailand

## Overview

The Pipe Supports Group is a specialist supplier of pipe supports for the power generation, petrochemical and process industries. It has global design and manufacturing in Europe, North America and Asia, and sales offices around the globe.

Pipe Supports Limited was formed in 1968 to design and manufacture the Comet range of pipe hangers. Now part of the Hill and Smith Holdings PLC group of companies, Pipe Supports Ltd has an enviable reputation for quality, reliability, competitiveness, engineering excellence and financial strength. Our products have been supplied to every continent of the world through an international sales network dedicated to meeting its customers' stringent quality and delivery requirements.

From its origins in the heart of the United Kingdom, Pipe Supports Limited has grown into a worldwide organisation with manufacturing plants in the UK, USA, India, and Thailand.

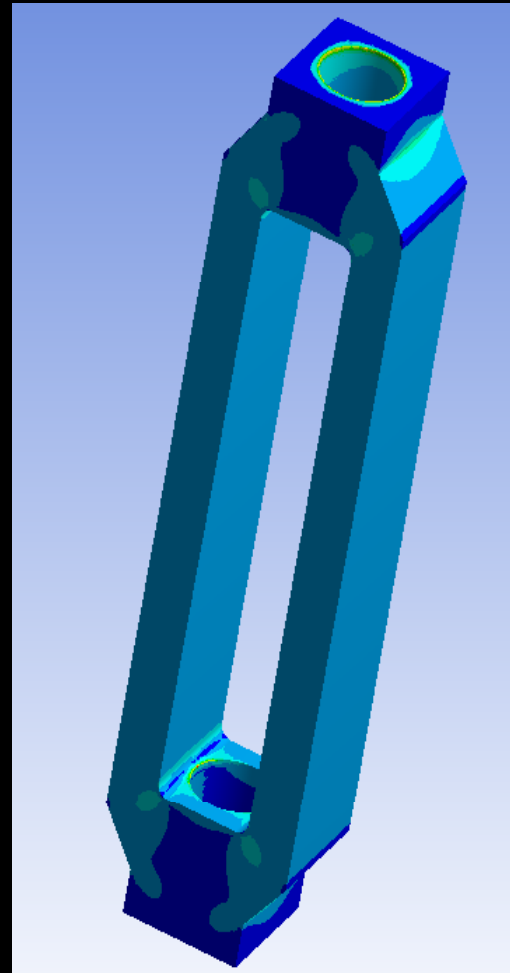

The Pipe Supports Group has a continual development programme, resulting in the most comprehensive range of products available from one source. To ensure the products are of the highest standard, they are produced in manufacturing plants equipped with the latest technology available.

## Testimonial

"We choose to use ANSYS Workbench to perform stress analysis. ANSYS is a must for product development."

*Pasit Kuakulkiat*

Design Engineer  
Pipe Supports Asia Ltd.

### Challenges

- Justification of our products in accordance with the ASME Boiler and Pressure Vessel Code.

### Solution

- We use Ansys DesignModeler to create design models.
- We use Ansys Professional NLS to perform stress analysis.

### Benefits

- Reduce development costs and time.
- Provide greater product reliability.
